FULL STACK DEVELOPER & UI/UX DESIGNER

Executive summary:

Driven and forward-thinking technology professional with a strong passion for designing and developing intuitive solutions that enhance operational efficiency and elevate user satisfaction. Demonstrates a unique blend of technical expertise, strategic problem-solving, and leadership skills, consistently delivering high-quality outcomes in both individual and team-based environments.

Education:

1.Sri Shakthi Institute of Engineering and Technology <i>B.E. in Computer Science and Engineering</i>	2023 - 2027 CGPA: 8.9
2.Alvernia Matriculation Higher Secondary School <i>Class: XII</i>	2022 - 2023 Percentage: 91%

Experience

PHICSIT PVT.LTD <i>Software developer intern</i>	September 2025 – Current
--	---------------------------------

- Designed intuitive **UI/UX prototypes in Figma**
- Developed & deployed responsive frontend features** using React.js, ensuring functionality across devices.
- Authored comprehensive **product documentation** for end-users by reducing on-boarding time by 35%
- Built and optimized backend services with Express.js, improving API response efficiency and scalability.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, RESTful APIs, Figma,

Projects:

SmartEV - A full-stack platform built with React, React Native, TailwindCSS, Figma, Node.js, Express.js, MongoDB alongside integrating blockchain, AI/ML analytics, and IoT telemetry for end-to-end EV management | [link](#)

- Built **frontend interfaces and UI components** using React.js, TailwindCSS, and Figma, ensuring a modern, responsive and user-friendly experience.
- Integrated with Node.js, Express.js and MongoDB to support real-time **EV telemetry, battery life-cycle tracking** and charging station management.
- Collaborated on designing scalable dashboards and streamlined data flow for **predictive analytics and blockchain based transactions**.

MedMonitor - A full-stack platform built with React.js, Tailwind CSS, Figma, Node.js, Express.js, MongoDB, GitHub, Figma, OpenCV | [link](#)

- Built a user-friendly interface with React.js, CSS, and Figma to **enable consumers and pharmacies** to instantly validate medicines
- Developed backend logic using Node.js and Express.js to detect counterfeit medicines by flagging duplicate or unauthorized entries and medicines
- Designed secure MongoDB schemas for legitimate product records, improving database reliability and reducing counterfeit risks.

RecoMovies - A movie recommendation platform built with React.js, Redux, Tailwind CSS, JavaScript, REST APIs | [link](#)

- Focused on state management using Redux, ensuring smooth data flow and **real-time updates across the app**.
- Integrated APIs to **fetch movie data and implemented efficient watchlist** management for a seamless user flow and better experience.
- Improved watchlist management logic to reduce redundant renders and enhance performance
- With Redux store and API calls to **minimize redundant renders** and improve app responsiveness.

UI/UX Designs : Figma

- Product documentation** – Redesigned product documentation & workflows for a better user experience | [link](#)
- Athlete Test Validation App** – Created intuitive app interfaces for verifying physical tests with ease | [link](#)
- Socio-Help Platform** – Designed user flows and interfaces for donations, charity, and volunteering | [link](#)
- Micro-Learning App** – Developed engaging, learner-friendly interfaces for e-learning modules | [link](#)

Skills:

Languages : Java, JavaScript, SQL

Tools & Technologies : HTML, CSS, React, Node.js, Express.js, Tailwind CSS, Figma, MongoDB, MERN Stack, React Native

Soft Skills : Strong communication, Team collaboration, Adaptability, Problem-solving, Quick learner

Languages (Spoken & Written) : Fluent in English, Tamil, and Hindi, Fluent in spoken Kannada

Achievements & Certifications:

- Runner-up at MobilityX Hackathon** among 250+ participants and 1st place in the software track..
- Finalist** – Ministry of Coal National Hackathon, ranked among the **Top 10** teams across **300+ teams**.
- Pitched at TN Startup Summit '25** – presented our startup idea “MICROLEARNING”
- Winner** – Paper Presentation & Coding Event among 150+ participants at KIT college
- Contributed to **open-source projects** through GSSoC and OCI connect
- Courses and Certifications** - Completed DSA in Java and Full Stack MERN courses on Udemy, along with multiple tech certifications
